

Travis.yml

Node

```
language: node_js
node_js:
  - '4'
```

Provides: 0.10, 0.8, 0.6, 0.11 (latest dev)
Defaults install to `npm install`
Defaults test to `npm test`

Ruby

```
language: ruby
rvm:
  - 2.0.0
  - 1.9.3
  - 1.8.7
  - rbx-19mode
  - jruby-19mode
  - jruby-18mode
```

Defaults install to `bundle install`
Defaults test to `rake`

Build lifecycle

`before_install`
`install`
`before_script`
`script`
`after_success` or `after_failure`
`after_script`
OPTIONAL `before_deploy`
OPTIONAL `deploy`
OPTIONAL `after_deploy`

Branches

```
branches:
  except: [".."]
  only: ["master"]
```

Environment vars

```
env:
  - "rack=master"
  - "rack=1.3.4"
```

Custom test command

```
script: make test
before_script: make pretest
after_script: make clean
```

```
before_script:
  - make pretest1
  - make pretest2
```

Branches

```
branches:
  except:
    - legacy

  only:
    - gh-pages
    - /^deploy/
```

Apt packages

```
before_install:
  - sudo apt-get update -q
  - sudo apt-get install gcc-4.8 -y
```

<https://docs.travis-ci.com/user/installing-dependencies/>

Etc

```
gemfile:
  - gemfiles/Gemfile.rails-2.3.x
  - gemfiles/Gemfile.rails-3.0.x
```

Notifications

```
notifications:
  email:
    - dropbox+travis@ricostacruz.com

  email:
    recipients:
      - dropbox+travis@ricostacruz.com
    on_success: <always|never|change> # default: change
    on_failure: <always|never|change> # default: always

  irc: "chat.freenode.net#travis"
```
